Notice of Consideration of No Further Action

Verizon Support Center
1155 Burtschell Road
Crescent City
Case No. 1TDN157

End of Public Comment Period: October 22, 2008

This notice invites the public to review and comment on the pending decision to require no further action regarding petroleum releases at 1155 Burtschell Road in Crescent City, California.

Problem Description:

Two underground storage tanks (USTs) were removed from the Site. A 10,000 gallon UST was removed in November 1991 and another 12,000 gallon UST was removed in June 2003. Soil and groundwater impacts were identified at the former UST locations which were in an area northeast of the existing building.

Corrective Action:

Approximately 1,750 tons of impacted soils have been removed from the former USTs location and disposed of offsite. Impacted groundwater was also removed from the tank excavation when the tanks were removed. The extent of groundwater contamination was defined via the drilling of soil borings and installation of groundwater monitoring wells.

Status of Contaminants in Groundwater:

Groundwater impacts were localized in lateral extent within and adjacent to the UST excavation location. Total Petroleum Hydrocarbon (TPH) as Gasoline was not detected in any of the groundwater monitoring wells during the April 2008 sampling event. Low levels of volatile organic constituents were detected in monitoring wells MW-3 and MW-5 and are not associated with the former USTs. Concentrations of the volatile organic compounds are below water quality objectives.

Regional Water Board staff intends to concur with no further action unless comments and/or new information is submitted demonstrating that this case does not meet the requirements of no further action. If you would like to review the case file, appointments are recommended and can be scheduled by calling (707) 576-2220. Please contact David W. Parson, PG 6037, CEG 1889 at (707) 576-2556 or e-mail, dparson@waterboards.ca.gov with any questions or comments. Written comments may be sent to the attention of David W. Parson.
